***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:

While the prior art of record teaches the use of a DIR compound in the light-sensitive layer of a silver halide photographic material, said art, does not, in fact, disclose or teach the silver halide photographic material comprising a colloidal silver-containing non-light-sensitive layer or non-light-sensitive layer adjacent thereto containing a DIR compound, as presently claimed. Applicants have clearly demonstrated therein the experimental examples of their specification that significant unexpected photographic advantages with respect to fluctuations in fog and speed due to processing and storage, are realized with the inventive photographic samples characterized by containing a DIR compound in a colloidal silver-containing non-light-sensitive layer or non-light-sensitive layer adjacent thereto.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 1-6 are allowed.
3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Geraldine V Letscher whose telephone number is (571) 272-1334. The examiner can normally be reached on 7:30am to 4:00pm.
